

# Policy Compliance

**OVERVIEW:** ComplianceManager's Policy Compliance system ensures that your employees, vendors and partners sign-off on their policy & compliance obligations, all within a single, fully integrated source.

**SIMPLIFY YOUR POLICY COMPLIANCE PROCESS.** With the ever-growing list of policies, directives and regulations, how can you ensure that your employees and other business partners understand and sign-off on their obligations? And how can you do it quickly, effectively and within budget?

The answer is **ComplianceManager's Policy Compliance System.**

## With ComplianceManager you can:

- Easily access from your Internet browser
- Create certifications and questionnaires
- Automate distribution and guarantee current policy awareness
- Manage large numbers of users at multiple locations
- Record and store certifications in one central location
- Monitor status with real-time dashboards
- Track who certified what and when
- Customizable reports
- Ensure 100% response with auto-reminders and escalations
- Two-way communication with employees/partners

*Make people accountable. Ask for periodic certifications that obligations have been met, track that they've been made, and follow-up on any issues. Report to management and then start the process again.*

## PROVEN TIME SAVINGS AND ROI

Our workflow solutions greatly reduce the amount of time needed to perform each policy compliance project, while simultaneously improving centralized record-keeping and overall project and data visibility.

## PREDICTABLE & REASONABLE COSTS

Our Cloud model allows us to deliver all of this in a very secure and cost-effective manner.
